

# Noah System Electronics GmbH

DEVELOPMENT AND PRODUCTION OF POWER ELECTRONICS

**AGRICULTURAL**

## Description

- application : Tractor 2375
- qty: 750 per year
- project: 000074
- status: series

## Features

- using innovative Press-fit technology
- compactness
- increased vibration resistance
- power distribution module
- total current more than 250 A

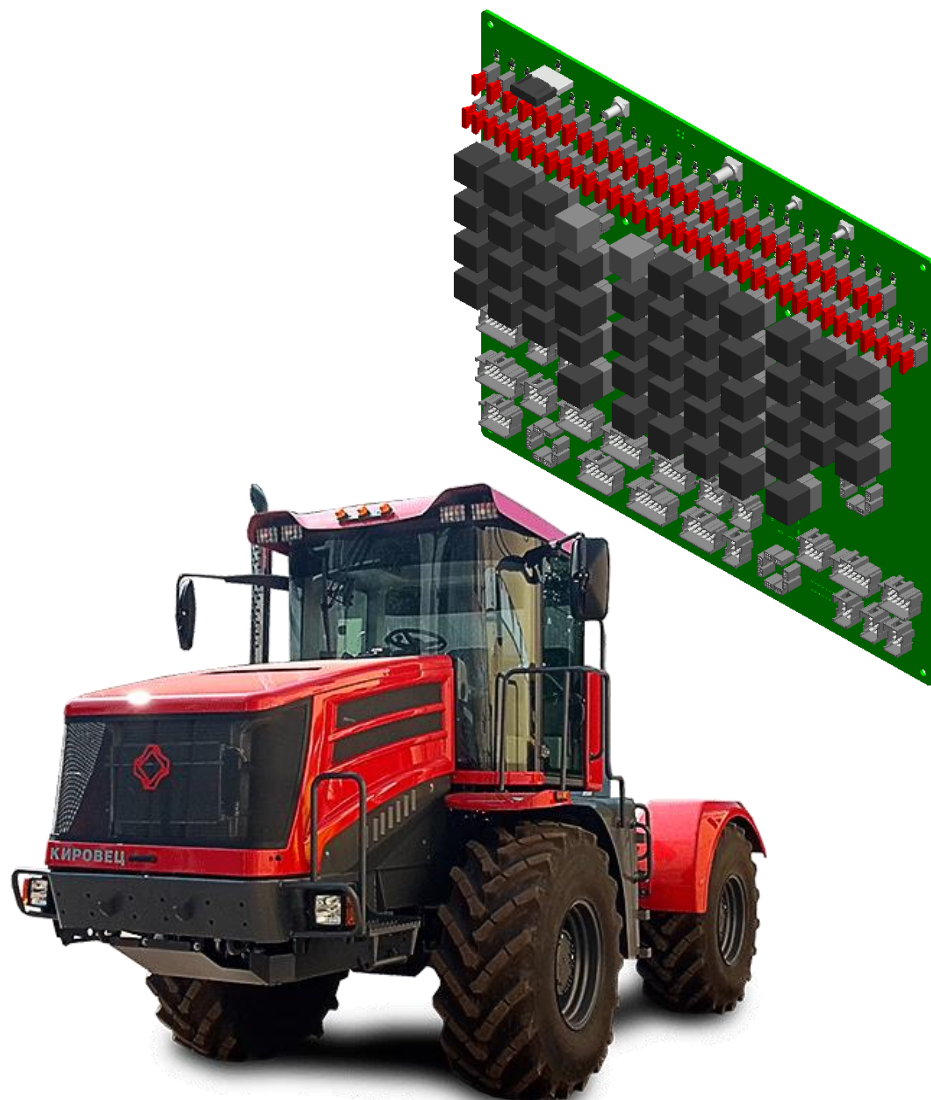

## Description

- application : Tractor K4
- qty: 1500-2000 per year
- project: 000071
- status: development

## Features

- using innovative Press-fit technology
- compactness
- increased vibration resistance
- power distribution module
- ASU Relay 1.0
- total current more than 250 A

## Description

- application : Tractor K4
- qty: 1500-2000 per year
- project: 000023
- status: pre-series

## Features

- starter Lock Relay
- temperature measurement
- two independent outputs
- ASU Relay 2.1

Thanks!
