

Noah System Electronics GmbH

DEVELOPMENT AND PRODUCTION OF POWER ELECTRONICS

TRUCKS

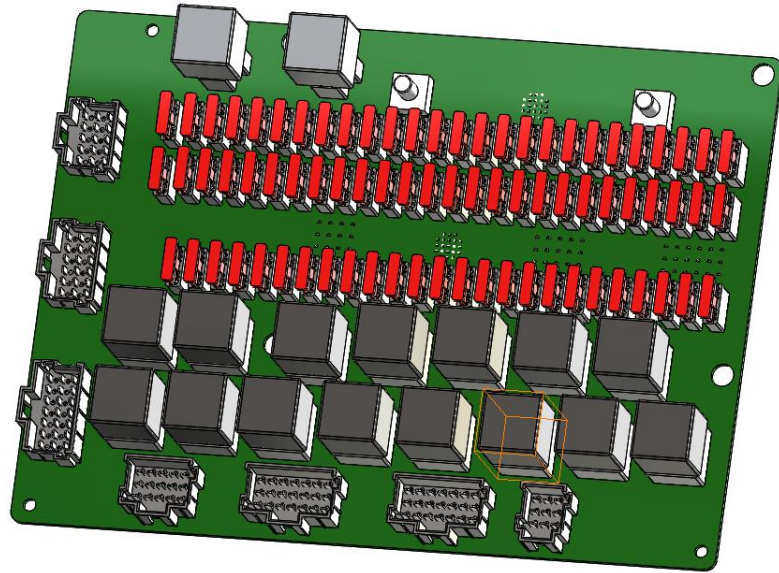

Description

- application : dump truck
- qty: 6000-8000 per year
- project: 000066
- status: testing

Features

- programmable Electronic Transmission Control Relay
- current and temperature control
- battery control
- transmission Electropneumatic Valve Control

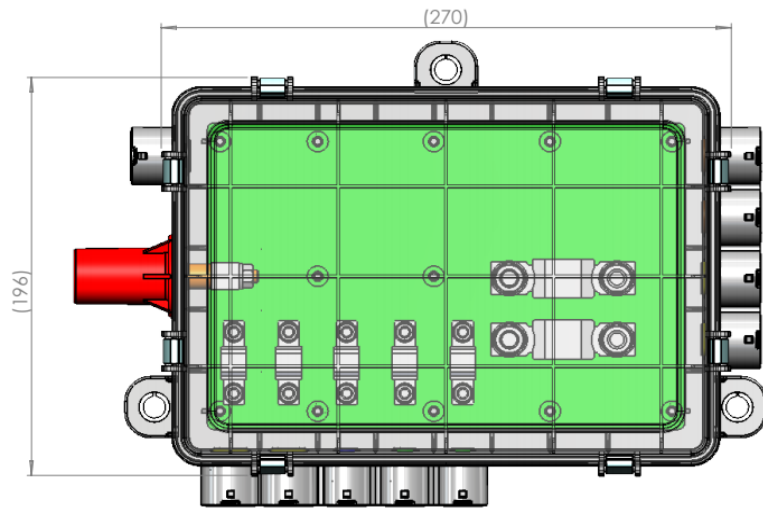

Description

- application : K5
- qty: 45000 pcs
- project: 000076
- status: lost, prototypes tested

Features

- using innovative Press-fit technology
- compactness
- increased vibration resistance
- ASU Relay 1.0
- total current more than 200 A
- faster assembly on the conveyor
- elimination of errors during assembly

Description

- application : K5
- qty: 45000 pcs
- project: 000017
- status: lost

Features

- using innovative Press-fit technology
- compactness
- increased vibration resistance
- total current more than 200 A
- faster assembly on the conveyor
- elimination of errors during assembly

Thanks!
